## AFFORDABLE AND CLEAN ENERGY: POWERING A SUSTAINABLE FUTURE

Energy is at the heart of modern life, yet millions around the world still lack access to reliable, affordable, and sustainable energy sources. Goal 7 of the United Nations' Sustainable Development Goals (SDGs) focuses on ensuring access to clean energy for all while reducing environmental impact. This month, our school newspaper explores the importance of renewable energy, energy efficiency, and innovative solutions that contribute to a greener future. Through school initiatives, expert insights, and student contributions, we aim to raise awareness and inspire action toward a world where clean energy is accessible to everyone.

## MIDDLE SCHOOL STUDENTS TAKE ACTION FOR A SUSTAINABLE FUTURE

Our middle school students are taking action for a greener future by collecting recyclable materials as part of Sustainable Development Goal 7: Affordable and Clean Energy. Every small step leads to a big change. Let's build a sustainable world together!

### SPREADING AWARENESS: MIDDLE SCHOOL STUDENTS CREATE INSPIRING ENERGY POSTERS!

Middle school students have used their creativity to design billboards and posters highlighting the importance of affordable and clean energy. Through eye-catching visuals and powerful messages, they aimed to raise awareness about sustainability and the need for reliable, modern energy solutions. These student-made posters serve as a reminder of our role in building a greener future.

### FORMER AMBASSADOR PROF. DR. ALI ENGIN OBA GIVES INSPIRING TALK ON ETIQUETTE AND PROTOCOL

Middle school students had the opportunity to attend a valuable conference by former Ambassador Prof. Dr. Ali Engin Oba on etiquette, behavior, and protocol. He shared insights on proper conduct in social and professional settings, emphasizing the importance of respect and good manners. The event was an enriching experience for students, helping them understand the significance of etiquette in daily life.

### MIDDLE SCHOOL STUDENTS ENJOY A SNOWY ADVENTURE IN CAPPADOCIA AND ERCIYES!

Middle school students had an unforgettable two-day trip to Cappadocia and Erciyes with their teachers. They explored the breathtaking landscapes of Cappadocia and experienced the excitement of winter fun in the snow-covered Erciyes mountains. The trip was filled with adventure, learning, and unforgettable memories, making it a perfect winter getaway!

## TWO LANGUAGES, ONE DREAM: INNOVATION AND IMAGINATION IN EDUCATION

We had a fantastic time at the "Two Languages, One Dream" event, where the international success of The Globals online English platform by Magenta Publishing was celebrated, alongside the launch of the Turkish digital reading platform JUKIT. The first panel, moderated by Esra Arslan, featured experts discussing Sustainable Development Goals (SDGs) and transforming education. Speakers included Ayşen Güven, Prof. Dr. Itır Erhart, Çelebi Kalkan, and Mert Firat, emphasizing the need for SDGs in education. In the second panel, authors such as Begüm Kütük, İlkin Aydın, and Alper Kul shared insights on children's literature and the creative process. The event highlighted the importance of interdisciplinary and international collaboration for educational transformation.

## HIPPO ENGLISH EXAM QUARTER FINAL AT ÇAĞ COLLEGE

On February 14, 2025, Çağ College High School students from grades 9, 10, and 11 took the Hippo English Quarter Final Exam. The Hippo exam, conducted in over 50 countries with support from GateHouse Awards and Mizzou International, promotes cultural exchange through English. It consists of three stages: Quarter Final, Semi-Final, and Final. While Quarter Finals are held in schools, Semi-Finals take place at designated centers. Finalists compete in Venice, with expenses covered except for travel. Successful students receive internationally recognized GateHouse Awards certificates. At Çağ College, language proficiency is assessed by the Foreign Language Education Coordinatorship, and students engage in Interactive English activities throughout the year.

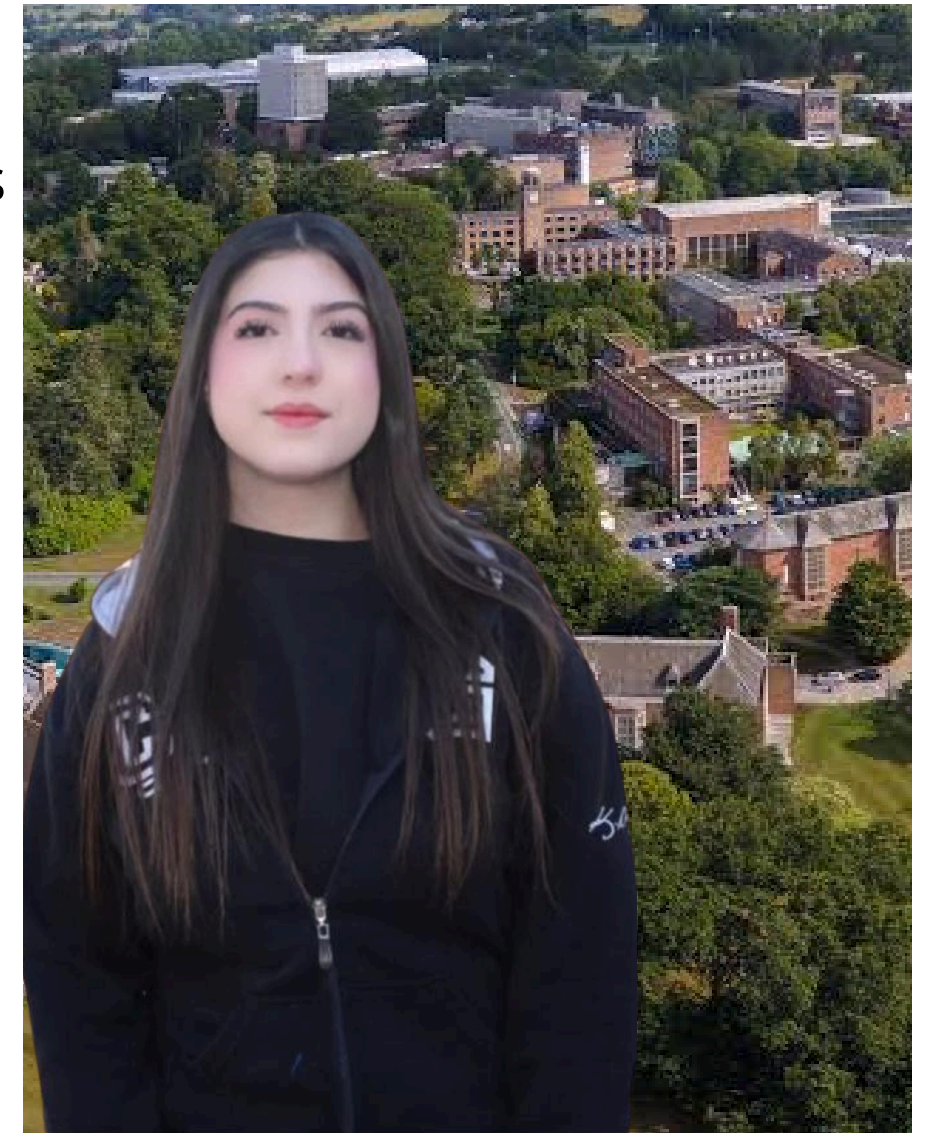

## AFFORDABLE AND CLEAN ENERGY by MİNA ÇİFTÇİOĞLU

Affordable and clean energy is essential for sustainable development and improving the quality of life worldwide. Access to reliable and affordable energy enables economic growth, reduces poverty, and supports essential services like healthcare and education. Clean energy sources, such as solar, wind, and hydropower, play a crucial role in reducing greenhouse gas emissions and combating climate change. These renewable sources provide an environmentally friendly alternative to fossil fuels, which contribute to air pollution and global warming. Investing in clean energy technologies has become more affordable over the years due to advancements in technology and government policies promoting sustainability. Many countries are now focusing on expanding renewable energy infrastructure to ensure that electricity is accessible to all, especially in rural and underserved areas. Off-grid solar solutions and community-based energy projects have been successful in bringing power to remote locations, improving livelihoods, and fostering economic independence. However, challenges remain, including high initial costs, energy storage limitations, and the need for better infrastructure. Governments, private sectors, and international organizations must work together to provide funding, incentives, and innovative solutions to make clean energy more affordable and widely available. By transitioning to sustainable energy sources, we can create a greener future, improve public health, and ensure energy security for generations to come. Affordable and clean energy is not just a necessity but a key driver of a more sustainable and equitable world.

## PROUD ACHIEVEMENT: SETENAY ESKİYÖRÜK ACCEPTED TO THE UNIVERSITY OF EXETER LAW FACULTY

Setenay Eskiyörük, one of our 12th grade students, was accepted to the Faculty of Law of the University of Exeter, England. We are proud that she graduated from Çağ College and was accepted by a university abroad. We wish our student success in his future education life.
